

Vanessa Galavíz

Dr. Galavíz's work focuses on public health issues related to environmental disparities. She is Mexican-American and experienced first-hand the struggles of living in an underserved community in Los Angeles, and was first in her family to attend college and graduate school. Dr. Galavíz has experience in multiple aspects of the public health field, including, determinants of health, biomarkers of exposure and susceptibility, cumulative impacts, industrial hygiene, exposure assessment, community science, and science-policy work.
