**Music**

**Various / Other**

Dear SCALE Students,

The following roadmap will help you plan your courses in such a way as to avail yourself of the courses that matter most to you and that are the most relevant to your professional goals while you are a Student at SWLAW.

All efforts have been made to establish a healthy rotation of courses across various specialties (see the color-coded sections). However, we may need to change the timing of courses in this roadmap based on professor availability or other circumstances. We will also update this document annually.

Courses that SCALE Students can avail themselves of are indicated with a white border. If you have any additional questions regarding which courses will work with the SCALE schedule, please contact either me or Dean Rolnick.

When course timing is indicated, it is based on the belief that such a course will likely occur, and that listing it as such will help with your planning. In some cases, we have not yet indicated the professor but one will be designated at a later date.

Please also note that if you miss a course, almost all of the courses listed here can be audited for CLE credit after you graduate. The number of units for each course is clearly listed.

Finally, no matter what your focus, remember that Copyright is often a prerequisite for the courses and that the "Foundational" courses are useful for all specialties.
