BAR EXAM QUESTIONS

"The Academic Success and Bar Preparation Department is the keystone to each law student's journey to becoming an attorney. Every student entered law school with valuable academic skills that helped them excel in their undergraduate studies. But our success as law students and passing the state bar depends heavily on our ability to incorporate what we know with the legal skills taught in law school. The Academic Success Department offers workshops to help adapt existing academics before students begin their first semester of law school. This Department heavily supports students learning doctrinal material throughout law school by offering various resources. Utilizing these resources as a law student has given me the confidence to tackle the state bar. After graduation, the Academic Success Department will continue to support me as I study intensely in the weeks leading up to the bar exam."

Supervising dean's fellow

ACADEMIC SUCCESS & BAR PREPARATION OFFICE

The office begins prepping students to pass the bar the minute they enter law school. Students can take advantage of academic readiness programs, courses, workshops, and individual counseling. The office hosts a series of academic success workshops in the spring semester of the first year to assist students who are seeking to improve their academic performance.

BISON BOOT CAMP

This non-credit course provides a comprehensive introduction to the study of law to entering students. The program provides an early start on learning and practicing the core academic skills necessary to succeed in law school, including time management, reading and briefing cases, and organizing and outlining material.

BISON BAR PASS

This bar preparation program is tailored to our student's needs and is available exclusively to Southwestern students taking the exam for the first time. Students enroll in a commercial bar review company of their choice and through the Bar Pass Program, receive individualized guidance, additional grading/feedback, on-campus simulated exams, stress management resources, and customized schedules.

CAL BAR WRITING: SKILLS AND STRATEGIES

This course provides students with instruction and practice in bar-style essay and performance test writing. Using frequently tested topics, students will develop the skills required to successfully perform on the written portion of the bar exam.

DEAN'S FELLOWS

Dean's Fellows serve as teaching assistants through the Academic Success & Bar Preparation Office. They are integral resource by assisting students in developing the five general skills areas: time management, note-taking, reading and briefing, synthesizing (weekly review and outlining), and exam writing.

FOUNDATIONS OF LAW AND PRACTICE

This course provides instruction in core law school skills such as reading cases and statutes, note-taking and classroom engagement strategies, time management, outlining, multiple-choice techniques, and effective exam writing. Students also receive training in those critical professional skills, characteristics, and competencies required for success in their legal practice.

MULTISTATE BAR EXAM: SKILLS AND STRATEGIES

This course serves as a refresher on the most heavily tested topics within each of the seven subjects tested on the Multistate Bar Exam. It provides an excellent foundation for students to develop the multiple-choice test-taking skills essential for success on the bar exam.

UWORLD

Every student has access to UWorld from their first day as a 1L through sitting for the bar exam. UWorld is an online bank of practice bar exam multiple choice style questions licensed from the National Conference of Bar Examiners. Students can use the questions to study and practice for their course exams and to study for the bar exam.
